Work Experience

Senior Software Engineer • HCL Technologies

Oct 2021 - Present

Added new features to the EHSM tool, a safety management application responsible for logging any incidents, near misses, and injuries in a factory. Was responsible for the increase in the number of entries in the application due to the easy use of UI and functionalities for LEGO users.

Senior Software Engineer • Mindtree Ltd

Jan 2021 - Oct 2021

- Designed and developed MAS (Media Approval Site) site, a product approval/reject site, developed the complete UI/UX from scratch and got good appreciation from the Unilever clients.
- Developed the Share Price webpart by consuming the Web API which could show the current share price in the NASDAQ market.
- ReDesigned the existing dictionary webpart and added extra functionality to the extra code, making it more accessible to Unilever users.
- Was responsible for designing the UX and developing the UI of CBT (Comms Briefing Tool), a pre-product briefing tool responsible for the planning of pre-released products which are yet to be released on the Unilever market.

Software Engineer • Mindtree Ltd

Jun 2018 - Dec 2020

- Developed a NewsCenter application for Unilever employees, where they can find all the latest and trending news which is occurring in and around Unilever. It was well categorised and made it easy for the user to find the news which interests him based on his location and work domain.
- Involved in the migration of metadata from the classic SharePoint site to the modern SharePoint site of Sivantos using a PnP PowerShell script. And make sure it was a 100% complete migration.
- Involved in the standard migration of the SharePoint site from On-Premise to O-365. And verify the workflows and webparts after migration completion to ensure full proof of migration.

Trainee • Mindtree Ltd

May 2018 - Jun 2018

Involved in developing an online portal for riders to provide knowledge on ensuring safety standards while travelling and also providing a platform for the riders to upload their blogs to the portal.
